## EQUITY

STUDENT FUNDING	<p>Funds pass through the district to the charter school. Law is vaguely written, leaving charter school funding decisions up to the school district. The school board provides the charter with its annual budget, deducts any operational expenses and sets its own administrative costs.</p> <p>"A local school board shall provide an approved charter school with an annual program budget. The budget shall be not less than the amount generated by the students enrolled in the charter school less administrative costs retained by the local school district, determined by applying the indirect cost rate approved by the Department of Education and Early Development. The 'amount generated by students enrolled in the charter school' is to be determined in the same manner as it would be for a student enrolled in another public school in that school district." [AK Stat. § 14.03.260]</p>
FACILITIES FUNDS	Alaska has a grant aid program, which provides for construction of school facilities, leases and major projects. It is dependent on annual state appropriations, not guaranteed. [AK Stat. §14.03.290]

## IMPLEMENTATION POINTS

-3	Three points are deducted because the state imposed a de facto cap by neither encouraging nor approving charter applications.
