

*Tired of abstract discussions about whether or not
children can learn at home?
Spending too much time finding answers?
Have questions about how to do digital and remote learning?*

COME TO THE NEXT IN CER'S ED INNOVATION VIRTUAL SERIES AND LEARN FROM THE BEST!

Tuesday, April 14, from 11 am - 12 pm EST

Via Zoom! Register at:

<https://edreform.com/about/events/edinnovationvirtualseries/>

for this Complimentary Virtual Event and you will be emailed login credentials

JOIN:

Jamie Candee, President and Chief Executive Officer, [EdMentum](#)

Mark Gleason, Executive Director, [Philadelphia School Partnership](#)

Gregg McGough, Director of Curriculum, [Columbia, PA Borough School District](#)

Stephanie Saroki, Managing Director, [Seton Education Partners](#)

CER's first [Virtual Ed Innovation Event](#) was a resounding success so we are continuing the work by bringing you Part II, with lessons and tools for remote learning from leaders from a **massively successful charter network, a city wide network of schools, an innovative public school district, and the leader of a company that makes it possible for schools and educators to provide access to education for students everywhere!**

The recent climate has given us renewed confidence, among other things, in the adaptability of school leaders, creativity of the staff, and resilience of both parents and students. The current challenges make educational innovation all the more necessary and offer us a unique and collaborative opportunity to come together. Our commitment to you is to continue the conversation connecting you to current practical and innovative solutions that make education success possible.

Thus we would love for you to join us for this interactive, 1 hour session with Q&A where YOU get the answers to YOUR questions - and those of other participants just like you from around the country.

[Now Screening: Part 1 in our Ed Innovation Series held April 2nd](#)
